

Cannon Falls Area Schools  
Safe Return to School Plan 2022-2023  
**Update 2-13-2023**

Cannon Falls Area Schools is committed to prioritizing in-person learning experiences for students.

**Health Screening Process:** All people entering any Cannon Falls Area Schools buildings are expected to perform a complete self-health screening prior to entering the facility. Screening for students under the age of 12 will be completed by an adult.

Testing is recommended if you have any of the symptoms of Covid 19 listed below:

- Fever of 100.4 degrees or higher
- New-onset cough or a cough that is getting worse
- Difficulty breathing
- New loss of smell or taste
- Extreme Fatigue
- Muscle or Body Aches
- Headache
- Sore Throat
- Congestion or Runny Nose
- Nausea or Vomiting
- Diarrhea

**Isolation Guidelines:**

- Students and staff are still recommended to stay at home if they are not feeling well and required to stay at home per Covid practices when experiencing vomiting or temperatures of 100 degrees or above.

**Communication:** Families will be required to report a positive case of COVID-19 to their school nurse. All test results need to include the child's name and date of test.

**Covid Advisory Committee:**

- The Superintendent and Administrative Team, along with the school nurse, constantly meet, monitor the data, and discuss health recommendations.
- The Superintendent will meet with the Covid Advisory Team on an as needed basis to gather feedback on recommendations and develop new ones if necessary. This committee will be made up of administration, teachers, school nurse, facilities, transportation, county health providers, parents, and school board members.

**Learning Plans for Absent Students:**

- Teachers will prepare work for students who are absent as they would during any absence. Technology and other resources will be used at the teacher's discretion.

**Safety Protocols:**

- **Students and Staff should stay home when they are showing symptoms and work with school nurses to decide length of stay and next steps**
- Frequent hand washing and sanitizing
- Extensive cleaning throughout buildings
- Upgraded ventilation system
